# DEDICATION

To C. Shannon Wright we respectfully dedicate this second edition of "The Maple".

For thirty-one years Mr. Wright has been the inspiration, counselor and guiding light of hundreds of our students. To him who has given freely of his time, knowledge and wisdom that only long years can bring; to him who has over the years proven to be a great worker and fund raiser for the F.F.A.; we dedicate this yearbook.

We, the student body, wish at this time in some small way to point out to all who read this publication that we think "Charlie" Wright is a man to be loved and respected. To him we offer our humble thanks and appreciation and wish him many more years and greater happiness, even greater than that which has gone before.

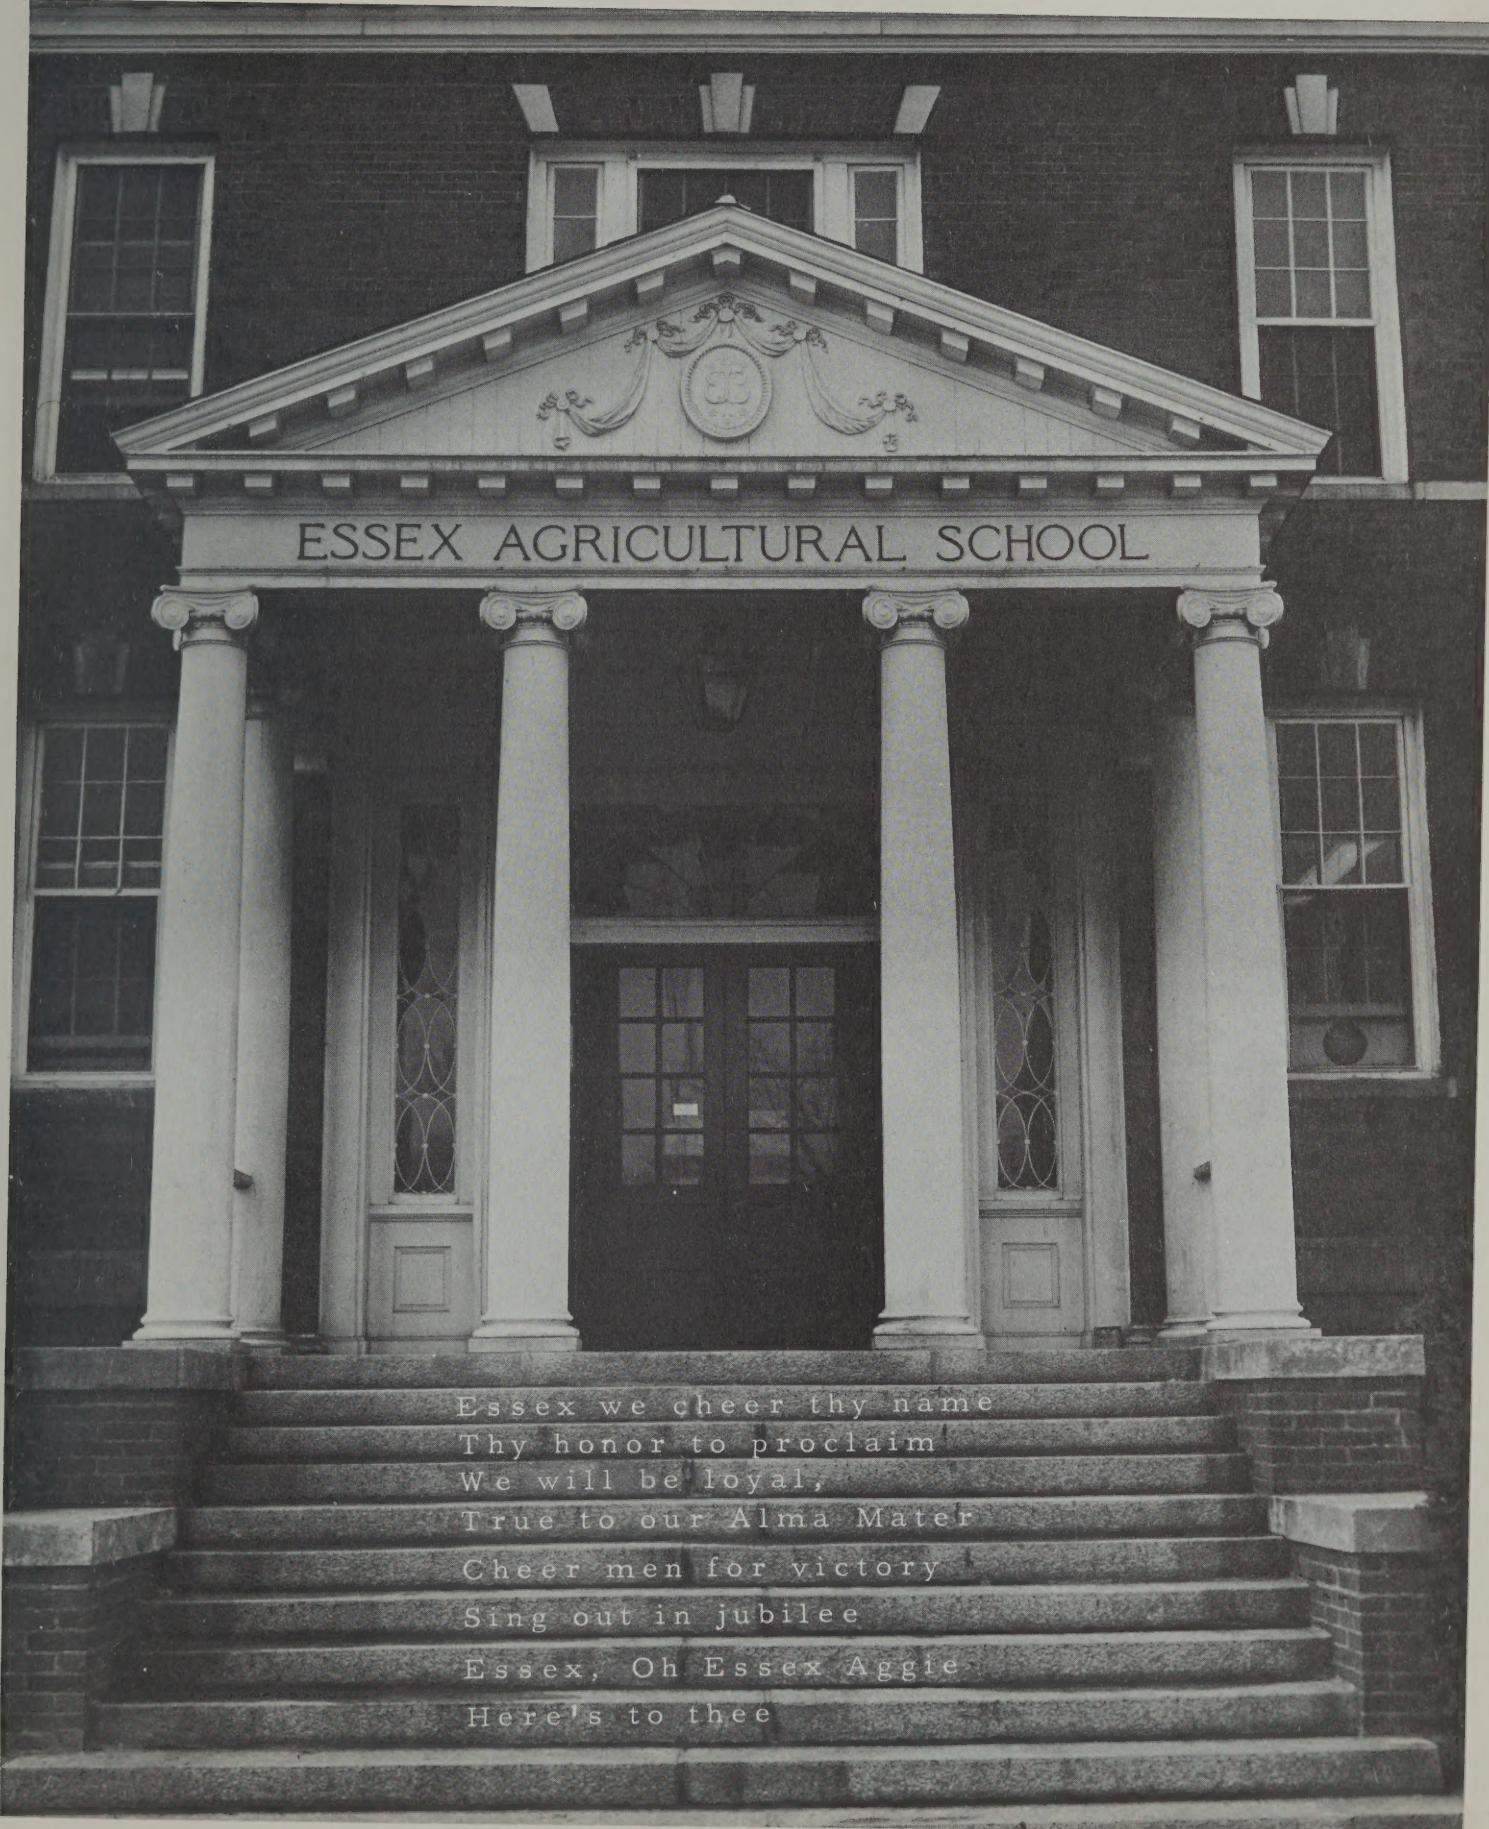

This, the second edition of "The Maple" is also dedicated to George A. Meigs, who retired last August after 36 years of teaching in vocational agriculture.

Many of us recall that Mr. Meigs was the first contact we had with the Aggie as he represented the school on the vocational guidance program.

We remember him best as the "Essex County Bee Man", approaching a hive fearlessly, while dressed like a man from Mars.

The hundreds of students he has served in the past add their good wishes to those of the Maple Board for many more happy years for George Meigs who has dedicated a lifetime to the youth of America.

We, the Class of 1958, being of sound mind and body do hereby agree to this our Last Will and Testament and therefore bequeath the following to our fellow students:

Betty Hills believes that getting along with teachers will be in style next year, thanks to Doris Clay.

Ruth Canney, who loves that new mint-tasting glue found on stamps, would be happy to receive Merrilyn Cook's stamp collection.

Janet Stapledon bequeaths her auburn tresses to Pat Williams.

Does anyone want to learn how to sew on a button? Louise Landford is giving free lessons.

Sandra Brown leaves her naturally (pinned up every night) curly hair to Carol Knox.

Dorothy Coton has discovered a simple way of developing her shoulders muscles with an accordion. How about it, Dianne LeBrasseur, want to learn?

Claire Gaudette stated that she likes to walk in sand, so to her go Ellen Lawlor's sand-clopping desert boots.

Knowing that four eyes are better than two, Marguerite Denis leaves her binocs to Judy Jones.

Anyone want to learn the art of drawing a straight line? If so, Judy Sharpe leaves her artistic ability to you.

Carol LeBlanc gives her natural ability of being goofy to Lorene Lambert.

You will never have to say, "If I knew you were coming, I'd have baked a cake," if you'll only listen to Lorraine Rogers.

Judy Denis will receive from Arline Ouellet a much needed lesson on classroom attentiveness.

Our renowned authority on dieting, Jacky Garlick, leaves her vast knowledge to Carol Palmer.

Helen Scoglio and Carol Sanborn, both being skeptical about letting someone else warm the rider seats in those certain cars, leave that privilege to no one.

To Miss Harris, who always has our best interests in mind, goes the extra money left in the class treasury.

To Mrs. Maude, who has been our diligent leader and true friend, we leave our countless thanks from the Class of 1958.

# HOMEMAKING SCHOOL

## CLASSES PROPHETIC

What a pleasant surprise I received the other day, an invitation to the Fall Showing of the "House of Sharpe", the High Fashion Shoppe on Fifth Avenue in New York. I immediately called Dorothy Castle and we made arrangements to fly to New York in George and Dorothy Castle's private plane in order to attend the opening. Of course, Dorothy is the now-famous award-winning actress. However, she will always remain just Dorothy Cotonj to me.

When we arrived at the airport in New York, we were met by the press who wanted to interview Dorothy about her forthcoming movie, "Mata Hari".

Among the women of the press we noticed a tall, attractive correspondent who seemed very familiar to us. Marguerite Denis then stepped forward to say, "Hello". Marguerite is the Woman's Page Editor of the New York Times. We were delighted to see her and decided to attend the opening together.

Marguerite, like Dorothy, is one of those women who combine a successful marriage with a career. In the taxi on the way to the Fifth Avenue Shoppe, I had to admit I had all I could do to manage my home and five active children.

At the door of the salon, we were met by the proprietor of the "House of Sharpe", Judy, herself. Her showing was about to commence, but she made certain we were given front row seats. Her able assistant, Sandra Brown, who is known in the Fashion World as Mademoiselle Sandra, wanted us to pay particular attention to the evening clothes as they are her specialty. She is considered the leading designer of evening wear in this country. Only in Paris are they able to compete with Sandy's elegant designs.

When the programs were in our hands, we were happy to note that the coiffeurs were done by the nimble fingers of Doris Clay, formerly of the Elizabeth Arden Salon, but now the leading stylist for the John Robert Powers Model Agency.

A hush seemed to fall upon the audience before the commentator began to speak and we all wondered why. We saw Helen Scoglio enter and we knew the reason immediately. Helen was the first woman to fly solo to the moon. Fashions must seem too tame to this daring and adventuresome woman who only

two years before, in 1975, successfully conquered space travel alone.

Helen told us that Carol LeBlanc, who runs a sheep ranch in Wyoming, was planning to accompany her on her next trip into outer space. Helen also said that she had recently seen Jackie Harris in Tokyo, Japan. Her husband, Fred, a general, is in charge of the Far Eastern Division. The former Jackie Garlick is the mother of four lovely children.

Janet Stapledon is also in the Far East, according to Helen. Janet is a Navy nurse with the rank of Commander and is in charge of a large Naval hospital in Korea. The showing began before Helen had an opportunity to tell us more about our classmates she has met in her travels throughout the world.

To our surprise the leading model of the show was Carol Sanborn. Carol models not only for the "House of Sharpe" but for all the leading fashion houses throughout the world.

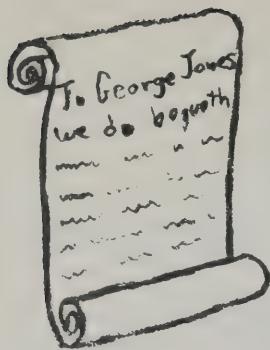

When the showing was completed, tea was graciously and ably served by Lorraine Rogers. Lorraine has her own catering service, one of the largest in the world, and she told us that she is kept very busy by society hostesses who require her services for their entertaining.

Helen, who flies to the remotest corners of the world in her space ship, told us of being in the coldest and most desolate region of Alaska and there meeting Ellen Lawlor. Ellen, who is of course married to Jack Billings, is hoping to discover a uranium mine in this area. Jack and Ellen have lived there for ten years now, but still have not found a trace of this mineral.

A very late arrival to this reminiscing group was our busy and illustrious classmate Senator Arline Ouellet. Arline apologized to the owners of the salon, but explained that she was in conference with the President at the White House. Arline, as busy as she is, told us about a pleasant two weeks she spent in Bermuda with Merrilyn. The former Merrilyn Cook and her husband, Bill, run a hotel "The Blue Wave" on this marvelous island.

This very entertaining day had to come to an end and Dorothy and I flew back to Danvers. Dorothy returned to her summer estate in Hamilton; I, to my farm, in Middleton. In spite of the excitement of the day, I was very happy to be home with my husband and children.

# Class Will

We, the class of 1958, believing that we are of sound mind and body, though we doubt that a competent physician would agree, do hereby leave the following advice to our beloved underclassmen:

"In promulgating your esoteric cogitations or articulating your superficial sentimentalities and amicable or philosophical observations, beware of the platitudinous ponderosity. Eschew all conglomerations of flatulent garrulity and intelligibility and veracious veracity without bombast."

We, in further testimony, do hereby bequeath the following gifts that we feel will both improve and add to your physical as well as mental capabilities.

"College Boy" **Alan Benson** leaves to the up-and-coming classes his handbook, "Fighting in Ten Easy Lessons".

To the next student to join the Army, **Dan Conery** leaves his "Navy whiffle".

To all future Aggie joy-riders goes **Camille Dauteuil's**, "Tales of 114".

To all "midnight auto sale shoppers" go **Bill Hackett's** hub caps.

To make the job easier, **Billy Winn** will receive **Barry Haynes'** pitchfork. Keep it flying boy, keep it flying!

If you are gifted with double-jointed fingers, **Don Bevilacqua** is leaving you that celebrated finger of his.

**Wayne Brooks** is leaving his ability to get straight A's to those of you in need of it.

Known for his safe-driving abilities, **Tommy Dolan** now passes them on to **Harold Brown**.

**Ernie Durfee** leaves his motorcycle jacket to **Mr. Cole** so he can add to his collection in that special closet.

**Phil Gagnon** is leaving his brown work shoes to **Paul Bleau**, so that he might change from his white bucks.

If you can do the hula, then **Lee Gifford** will leave you his ability to do it better at football parties.

**Scoffa Hathaway** would like to leave his attendance record to the next most deserving student.

**Elaine Bleau** is left a pair of shoes, also. These are to be used in crossing large streams, compliments of **Karl Hilse**.

**Bob Hiltz** is leaving his love for **Mr. Clark** to a gentleman named **Eames**.

**George Jones** is leaving his quick temper along with the job of editor of the Maple to **Sandra Hibbard**. He says they go together.

To the most deserving freshman goes **Jimmy Keans'** seat in the Director's outer office.

To all loyal Army men **Joe LaBonte** leaves his Marine handbook on, "What is a Marine".

**Don Hodgkins** is leaving his front plate to a certain **Mr. Holbrook**.

**Berny Jendraszek** does hereby leave his tall tales for use in Monday morning assembly.

**Jerry Jordan** is leaving his wonderful knowledge of design to **Sandra Hibbard**. Take very good care of it, Sandy.

Loving ways with the girls is left to **Bob Scamporino**, from loverboy **Jim Libbey**.

How about that now, **Brad Legere** can't think of what to leave you youngsters.

The coffee guzzling **Jim McGowan** gives his pass to the diner to **Mark Jenson**.

The hero of all good cowboys, **Gene Morse**, leaves his cowboy suit to **Bill Newcomb**. Sorry! You'll have to find your own horse!

Through the generosity of **Maurice Lynch**, **Malcolm Estell** is left the front seat in **Mr. Rohrbach's** truck.  
**Dave McCarthy's** quiet ways are left to the entire sophomore class.  
**Edward Murray** is giving the wrestling mats to anyone in a fighting mood.  
**Ron Richiuts** is leaving his well used technique of skipping school to **Bob Kwiathowski**.  
**Russell Robinson** is leaving his football helmet to **Larry Coyle**.  
**Dick Rollins** is leaving his late pass to class to the most deserving junior.  
**Jim Root** is leaving half of his Confederate money to the junior class. He said to hang on to it for the South will rise again.

The cowboy hat that has seen **Charley Stanley** through thick and thin is now the property of **Norman Rand**.

**Norman Wellington** would like at this time to present sophomore **John Noonan** with his physical build. Think you need help carrying all that padding?

The boy with the manly build, **Ronny Valliere**, leaves it to **Karl Karra**.

In order that he might become a red-headed Irishman **Don White** leaves his flaming crop of hair to **Mr. McHugh**.

**Bruce Wade** leaves his cool, calm and collected ways to **Kent Martin**.

To **Dave Dulong** goes that great ability to make touchdowns, gift of **Don Wright**.

**John Zalenski** leaves his IQ to **George Brown**.

**Redford Rand** leaves his lovely sideburns to **Jim Martin**.

**Clifton Conley** and **Hugh Shannon** leave their copies of the stock exchange reports to **John Murphy**.  
**Jack London** leaves his guitar to **Ken Shields**.

The entire class leaves nothing but the fondest memories to the staff and faculty of dear old **ESSEX**.

# CLASS PROPHECY

It seems just the other day the class of "58" graduated on a fine spring like November day. It doesn't seem possible that we should have our class reunion so soon, but fifteen years pass swiftly.

The invitations were sent out by **George Jones**, who recently became editor of the Eagle Tribune of Lawrence, Mass. Boy, that guy works fast! Just the other day most

of the class read an article in the Tribune about Secretary of Agriculture, **Alan Benson**, our college boy.

**Lee Gifford**, the top boss at the State Hospital now, gave me explicit orders to be sure and have plenty of food at the reunion. Some of the refreshments were sent from Lynn, where **Brad Legere's** restaurant is located and is doing very well.

Upon their arrival on the campus the boys were surprised to see the changes that have taken place, especially the new gymnasium, designed and built by the **Barry Haynes Construction Company** and completely landscaped by **Robert Hiltz Greenhouse and Nursery, Inc.**

The first one to greet all of us was the newest member of the Metropolitan Police Force, **Dan Conery**, who explained later, that he got tired of the crazy motorists who were always trying to run the pedestrians into the ground.

Inside the assembly hall, everything looked the same except that the "58" class emblem was missing. **Camile Dautueil**, the new educational manager, was arguing with director, **Joe LaBonte**. It seems that **Joe** thought we should see the picture of his custom lined Ford which is still quite the thing.

Wav over in one of the corners there arose quite a bit of commotion, and when I arrived, there was **Ronny Valliere**, nervous as ever, trying to control six kids. He is now a lion trainer, which calls for nerves of steel.

**Paul Turmel**, president of the Frenchmen's Clubs of America, and **Jimmy Root**, the manager of the Chicago Bears, were doing their best to keep from laughing their heads off.

**Bruce Wade**, the newly elected Mayor of Boston, was doing his best to beat down the cost of leaflets printed by the Tribune offices for advertising the City of Boston.

**Dick Hathaway** now handles all the money for the school, also other business affairs. He has fired all the help in the office and has hired all new girls.

Over in the corner sat the slaughterhouse partners, **Billy Hackett** and **Carl Hilsen**. They were trying to talk **Jim McGowan**, head of the dairy department, into having the bulls slaughtered, at a reasonable cost, of course, so their friend, **Dick Rollins**, could furnish the school with semen from his prospering bull farm.

All of us were there except **Gene Morse** and **Chet Richardson**. **Gene** was all tied up with the running of the farm in Montana, and **Chet** who liked Chicago so much when he was out there in "57", has started a business of his own, stock yard, I believe it was.

**Ron Richuits** was almost among the missing, but **Russell Robinson**, the owner of that mattress company where **Ron** works, testing their sleeping qualities, woke him with the promise that he could work overtime if he wanted to. The flowers were furnished by **Ed Murray** and **Jim Keans Florists**.

Noting the sheer beauty of the grounds we were all surprised to find out that they are kept up by **John Zelenski** and his friend **Don Wright**, who has become the new instructor of the **Flori Building**.

**Don Bevilacqua**, the manager of the Colonial Club's golf links as well as others, kept us amused by telling of the wicked games that **Wayne Brooks** and **Phil Gagnon** played at his club every day.

We all wondered what had happened to **Tom Dolan** and to relieve our minds **Jerry Jordan** let us in on a secret project being conducted by the government. It seems that the scientists are trying out one man rockets in an effort to get us out to Mars first, and they felt that **Tom** was the man to go. **Jerry**, who was down at the proving grounds cheering **Tom** upward, has just built his fourth large greenhouse.

Changes were announced by the director as to the new athletic instructors. **Berny Jendraszak** coaches and conducts tours, and **Arthur Parker** is the new coach of football and basketball. **Don Hodgekins** is in charge of the gym classes.

Up front was **Jim Libby**, who was eagerly interviewing different ones to see if they had had any children who were old enough to work for him this summer at his growing nursery business. He could never decide who he wanted to work for him, so this year won't make much of a difference either.

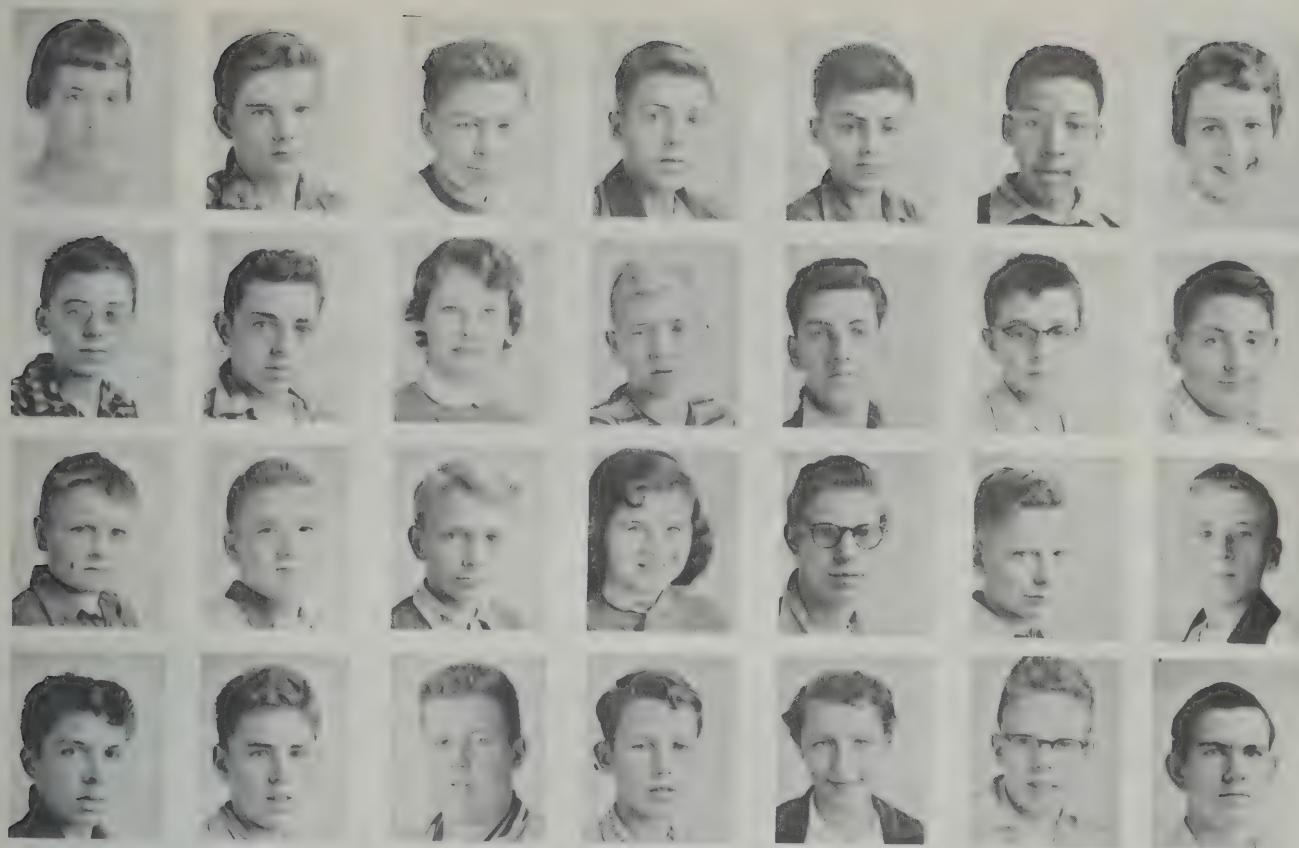

To the rear of the hall was **Mo Lynch**, the only Ford dealer in Andover, and his Nash competitor, **Donald White**, who are doing their best to outsell Durfee motorcycles. **Ernie** is now the chief stock holder in the **Harley Davidson**. One of **Durf's** clients was **Dave McCarthy**, the new arborists for the city of Beverly.

The two things I'll remember most are running into **John Short**, who is still looking for that rich widow, and **Charles Stanley**, who was still running around like crazy, trying to sell that Plymouth of his. I'm beginning to wonder a little bit if that car isn't hot.

All night there was talk about our class president, **Norm Wellington**, who will go for the heavyweight championship title next week. We sure wish him the best of luck.

It seemed that the night drew quickly to a close and the great class of "58", began to break up and head their separate ways to home and business.

Once more the doors of Essex Aggie close behind us, the class of "58", as we moved on for another fifteen exciting years.

The thud of **Tiny Wellington's** toe meeting the pigskin greeted the visitors to Bauer Field in early September. Footballs and footballers were rolling all over the field as the Big White, under the watchful eye of **Coach Ray Potter**, prepared for the 1957 season.

Back in harness were Co-captains Russ Robinson and Art Parker, Tiny Wellington, Don Wright, Phil Gagnon, Wayne Brooks, Chet Richardson, Les Gifford, Dick Hathaway, Dan Conery, Gene Morse, Larry Coyle, Joe Spero, Gary Rollins, Bob Gray, Dave Keating, Paul Bleau, Jeff Martin, Fred Johnston, Pete Branden and Ronny Wing.

The freshman class and transfers to Essex into the upper classes added the names of Dale Flynn, Dave Dulong, Fred Souza, Dave Townley, Joe DeMarco, Dean Kilgore, Myron Reed and Dean Curtin.

On October 5 the Big White got the season off to a good start by flooring Harvard 32 to 19. To the delight of a home crowd of students and parents on October 12, the Big White rolled again, scoring an easy victory over Lancaster 28 to 7.

October 26 was a sad day in the hallowed halls of Essex. On our own Bauer Field, Essex bowed to a fine Manchester team 24 to 14. This was one of the most fiercely fought games in the long history of Aggie football. With Co-captain Art Parker leading the way, the Aggie team gave their all, but the football gods were not looking in their direction.

The following week, a fighting mad team made Topsfield pay for the disappointment of the Manchester game. The Big White rolled to an easy 48-22 win. Cambridge School of Easton felt the might of the Aggie team as they continued to sweep to victory on November 11 to the tune of 22-6.

Georgetown was next on the list. They gave us a battle, but the Big White was not to be denied. Again the halls at the Aggie echoed to the cries and songs of victory.

We now came to the most important game of the season—Hamilton. If we could take this one, we stood to be co-champs with Manchester.

We drew our breath, players and students alike, as both teams lined up on the field. The pressure was on and all who were there knew it. To our delight the Manchester players were there to cheer our team on. When the smoke cleared, however, we had lost the game, but not our spirits. "Next year, next year, just wait and see what happens", were the comments that could be heard in the school and in the locker room. We are waiting and very confident that we can and will do it next year.

December 10 brought our season to a close with the annual players' banquet. Donald Wright, our star player of the year, got the gold trophy to that effect. Silver footballs were awarded to our Co-captains Arthur Parker and Russell Robinson, and to our faithful manager James Root went a Kodak flash camera. A fine ending for a fine year.

## BASKETBALL

To the surprise of many, Essex Aggie refused to be used as a door mat for the rest of the North Shore Basketball League this year. Although the scores indicate otherwise, Essex had a fine season which culminated in the dumping of Manchester into the sea for the second time with a score of 53-47.

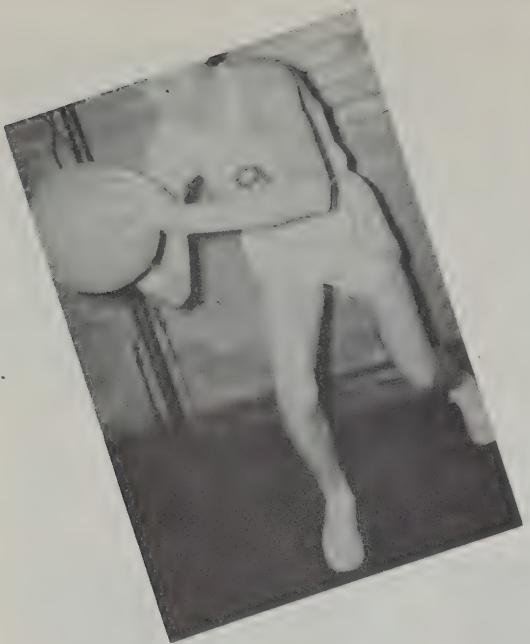

Throughout the year the team played a hard game, fighting to the end without the slightest lag in team spirit. Coach Ray Potter stated in the assembly that followed the final game that though we had not come up with the League Championship, we had moved that ball and picked out the boys who will head up next year's team and possibly place us near the top of the list. He went on to mention these boys by name: Joseph Spero, Bobby Gray, Don Lavender, just to mention a few. It might also be

brought out that Bob Gray and Philip Gagnon are to represent Essex at the Cape Ann All-Star game. Mr. Potter is, and has been, putting his all into our basketball team, and we feel certain that we will get results in the coming season. In mentioning wholehearted support, it would be a great wrong not to mention the team's faithful manager, Jim Root. By his untiring efforts to make things easier and more pleasant for the boys and by virtually becoming a one-man cheering section, he without doubt helped to maintain the high standards that the boys have set for themselves.

To the team we say, "Thanks for a job well done." To our coach we have not the words to express our thanks for his fine work. To you all, we say, "Good luck in the coming year."

Due to the determination of about twenty of our student body, Essex was able to maintain a hockey team again this season. Despite the many diverse conditions that plagued the team, such as distance, sickness, accidents and the like, they played a pretty good year. Fighting all the way, they played a total of nine games of which they won two and lost seven. Their win over Governor Dummer Academy was a great moral boast for these great boys. It is most certain that if the distances and time elements that hamper our efforts to conduct a highly successful program can be removed to some extent in the following season there is no question that we can rise to the top of the hockey ladder in this area.

#### Iron Works Model Displayed by F.F.A.

A scale model of the restored Saugus Iron Works was constructed during the past year by three members of the Essex Chapter F.F.A. Designed by George McKie of Lynn, assisted by Richard McManus, Lynn, and Robert Stevenson, Swampscott, all graduates in the November 1957 class of Agricultural School, this exceptionally fine reproduction represents over 300 hours of work and skill.

The site of the original Iron Works in Saugus, which is visited by people from all over the United States and foreign countries, has been made a shrine by the iron and steel industry and the actual cost of the original restoration was over  $1\frac{1}{2}$  million dollars.

The replica has been exhibited five times: at the University of Massachusetts; at the Saugus Iron Works; Topsfield Fair, Union Agricultural Meeting in Worcester; and at the Danvers National Bank.

#### Essex Chapter F.F.A. Holds Annual Budget Meeting

The Future Farmers of America organization in the United States draws its membership from vocational agricultural schools and vocational agricultural departments in high schools. There are approximately 385,000 F.F.A. members associated with 8990 local chapters. The Essex County Agricultural School in Hathorne has one of the largest memberships of any local chapter in the United States. At present

there are 226 members. The varied extra curricular activities and interests of the members make it necessary to sub-divide into 12 F.F.A. Committees and 11 F.F.A. Clubs. Each of these has its own set of officers. This is in addition to the 6 official Essex Chapter F.F.A. Officers and the Chief Adviser. By this organizational plan, twenty-four separate sets of officers receive experience in conducting meetings. Each Committee and each Club has one or more teacher-advisers, furthermore, each Committee and Club prepares an annual financial budget and program of work.

The 23 separate budgets are compiled into a Master Budget showing the estimated expenses and estimated receipts. The overall executive committee of the F.F.A. Chapter, consisting of the 6 officers, plus 1 homeroom representative, from each classroom, acts as a finance committee to study the Master Budget and make recommendations to the annual business meeting for budget action which is attended by the entire membership.

The annual budget meeting is patterned closely after the New England town meeting procedure. The six top officers are called upon to exercise their knowledge and skill in correct parliamentary procedure, seeing that the rights of all members are properly protected during the budget meeting. The Chief Adviser acts as parliamentary adviser when some parliamentary situation develops that is unfamiliar to the presiding President who carries the main burden for correct parliamentary procedure. This F.F.A. business activity is closely correlated with the citizenship courses at the Essex County Agricultural School. In the sophomore year, for example, an intensive one-year course in parliamentary procedure is given.

Following is the most recent Master Budget acted upon and passed by the Essex Chapter F.F.A. A few of the clubs and committees require no financing, and certain others bring in no income. Dependence rests on a relatively few committees and clubs to supply the necessary income that supports the organization. All local chapters in the United States

are affiliated with State Associations. State Associations, in turn, are affiliated in an annual National Convention which is held in Kansas City, Mo., each year.

Each state regardless of the size of membership is limited to two official voting delegates at the National Convention. This enables states with relatively small membership to have equal voting power with states like Texas and California that have 30,000 to 40,000 members.

This Master Budget was acted upon in the month of December, during three sessions of the annual budget meeting.

#### F.F.A. Christmas Decorations Show Winners

The F.F.A. Horticulture Club's Christmas Decorations Show held on December 18 and 19 from 7:30 to 9:30 P.M. at the Alumni Field House at the Agricultural School was one of the largest and most beautiful ever staged by the students. The show, which has been a daytime school activity in the past, was held for the first time this year in the Alumni Field House and was open to visitors and parents in the evening as well as during the day.

Seventy horticultural students participated and competed for 76 prizes in 19 classes. There were 28 banquet tables covered with decorations of all kinds. It is planned to continue to have the show open one evening each year in the future.

#### Chief Adviser Honored

At the 30th National F.F.A. Convention, October of 1957, at Kansas City, Mo., Ellery E. Metcalf, Chief Adviser of the Essex Chapter F.F.A. was awarded the coveted Honorary American Farmer Degree.

## ESSEX CHAPTER NEWS

The Essex Chapter of the Future Homemakers of America has been active throughout the year. Many varied programs have taken place with helpful experiences to the Essex Chapter girls.

April 7-13, 1957, marked the observance of National F.H.A. week and on the 11th, a special program featured Mrs. Gladys Romeyn as guest speaker, her topic was "Home is Where I Hang My Heart".

The 1957 May Day observance was a colorful and festive occasion for all. Our May Queen for the year was Carol Alaskiewicz of Danvers.

Money making projects included the sale of greeting cards, imprinted stationery and a bazaar which was held on Farm and Home Day. Essex Chapter members also participated in the National project of selling U.N.E.S.C.O. stamps to help the country of Libya to get educational materials. It was again a privilege for the Essex Chapter to contribute a sum of money to help send a State F.H.A. delegate to the National meeting, held at Purdue University in July of 1957.

The Chapter officers elected for 1957-1958 were: President, Louise Landford, Newburyport; Vice President, Carol Palmer, Salem; Secretary, Judith Jones, Middleton; Treasurer, Christine Sutton, Andover; Reporter, Pauline Jeffery, Salem; Historian, Anne Cleary, Lynn; Parliamentarian, Ruth Canney, Lynn, and Song Leader, Lois Johnson, Haverhill.

On May 25, 1957, the Essex Chapter girls were hostesses to the State Association, when the election of new State officers took place. Three Essex Chap-

ter members were elected to State offices. They are: President, Marguerite J. Denis, Salem; Secretary, Gloria Mailly, Salem, and Reporter, Ellen Lawlor, Peabody.

Again on September 28, 1957, the Chapter members were hostesses to the State Association at the Alumni Field House. During the morning, Miss Doris Fagerberg, Essex Chapter Adviser, showed colored movies which she had taken on a Scandinavian trip. A noontime cook-out was enjoyed.

The Annual Christmas party took place in the cafeteria on December 19, 1957. The play "A Candle in the Window" was presented by the Freshmen B's. Then the usual singing of carols and a visit of Santa (Jackie Garlick) was observed.

On January 7, 1958, six Essex Chapter members and two advisers, Miss Virginia Smith and Miss Doris Fagerberg, attended the annual Young Farmers' and Homemakers' Program in Worcester. The meeting was presided over by Marguerite J. Denis of Salem, our State F.H.A. President.

At the Chapter meeting, January 16, Miss Mary Ann Reid, Academic Instructor, told the girls about her trip last summer through Spain and Portugal. Miss Ruth Emerson, head of the Foods Department, told about interesting food customs of many European countries and showed colored slides of interesting places she had visited.

Respectfully submitted,  
Judith Jones, Secretary  
Essex County F.H.A. Chapter
